THERE WILL BE AN INFO DAY on 29th of May 2012
At 8p.m. at ttp WUK office, Währingerstr. 59. 1090

INTERFERENCIAS

INTERFERENCIAS is an encounter/research collective of 26 international artists in the field of choreography, dance and performance.

INTERFERENCIAS provides a frame for an „artistic research happening“in form of gatherings in several countries by creating temporary communities.

The first edition took place 2010 in Mexico and lasted 3 weeks, combining the aspects of education, research and performance. During this period the participants developed a collective research frame, focusing on contemporary working conditions (means of creation, politics of performance, locality of actions and collective self-organization), which offered the space to follow your individual interest within the topic as well.

In 2012 the 26 artist form a nomadic collective traveling trough Portugal, Austria, Mexico and Brazil.

Infos about the first edition in the web:
